

Spatio-temporal applications in ecology using R

Hand-in exercises of module 6a and 6b of Geoprocessing III - 2025

Fabian Bernhard & Koen Hufkens

2025-05-15/22

Phenology trends and algorithms

- course material at: https://fabern.github.io/handfull_of_pixels/
- exercises: chapter 7.1 Phenology trends and algorithms
- exercise: work alone or in teams of two
- hand-in: **by June 5th, 2025** (in ILIAS)
- hand-in: as a zip file containing a reproducible copy of your R project folder
 - Rmd files with your analysis and responses to the exercise questions
 - as well as rendered ("knitted") html-files of your Rmd-files
 - including other data and source code (if needed)
